

NOAA Educational Resources

Interested in a career in the marine sciences?

marinecareers.net will introduce you to a wide range of marine career fields and to people working in those fields. In addition, it will give those men and women a chance to tell you what they like and dislike about their careers, what they see for the future in their fields, and much more. This site also provides you with some experts' views on what the future holds for marine science careers.

To learn about careers in the Marine Sciences, go to <http://www.marinecareers.net/>

NOAA Education Web Site

www.education.noaa.gov

This site has been designed to help teachers, librarians, students and the public access the many educational activities and publications available from NOAA and its partners.

Information is available in the following categories:

- Weather - Find information about tornadoes, hurricanes, flash floods, tsunamis and all kinds of hazardous weather
- Climate Change and Our Planet - Learn about climate change and earth science
- Oceans and Coasts - Investigate fish, marine mammals, and our coasts
- Satellites and Space - Look at satellites, their data and check out space weather
- NOAA's Photo Library can be found at www.photolib.noaa.gov
- NOAA's Home Page can be found at www.noaa.gov

NOAA Educational Resources

Undergraduate and Graduate Resources

- **Jobs, Careers, and Recruitments** - A variety of information for undergraduate and graduate students through NOAA's Human Resources Department. Students can check out NOAA and federal vacancies; internship, fellowship, grant and scholarship opportunities; general career resources; and opportunities for minorities.
www.rdc.noaa.gov/~hrmo/jobs.htm
- **Student Research Participation Program** - Opportunities for students to participate in research and development related to science, math and engineering. It is for both undergraduate and graduate students and the opportunities are available in the Washington area and in NOAA field centers. www.orau.gov/orise/Educ.htm
- **NOAA Grants Management Division** - Information from NOAA Grants Management Division listing a variety of grant programs within NOAA, which include grants through the National Ocean Service, the National Marine Fisheries Service, and the National Weather Service.
www.ofa.noaa.gov/~grants/new/bulletin.html
- **Undergraduate Scholarship Program** - Information to explain a program that targets students who have completed their sophomore or junior years at Minority Serving Institutions (MSIs), and have recently declared or are about to declare a major in an atmospheric, oceanic, or environmental science discipline. Tuition/Fee assistance, summer internships, stipends and more are available for students in the program. Information can be found at <http://epp.noaa.gov/programs/?ID=5>
- **Graduate Sciences Program** - This program is aimed primarily at graduate candidates with degrees in math, science, economics, law, social science and engineering who have been accepted into a graduate program in a NOAA-related science. Information can be found at <http://epp.noaa.gov/programs/?ID=4>
